The World's Most Precious New Violin visits Jackson September 9-17, 2023

Jackson, WY: [ARK Silver Gold Osmium™](#) announces the only North American stop of the world's most precious new violin, the Osmium Violin. Commissioned by Kurt Assam and Karl Großschädl in July 2020, famous violin maker Edgar Russ built the violin over 32 months. The instrument has 541 crystalline osmium inlays as well as 298 diamonds, rubies, sapphires, and tsavorites all hand-set in 18 carat gold. It is made of high-quality precious woods: Italian hazel spruce, Bosnian sycamore maple and ebony from Cameroon. The starting price for this UNICAT violin is in the multi-digit millions of dollars range – the bidding principle applies.

ARK SGO™ is proud to partner with the Jackson Hole Chamber of Commerce to host the violin at the [QuickDraw Artist Reception](#) at the [2023 Fall Arts Festival](#) for a multiple song set at the event. Dinner patrons at [Warbirds Café](#) will also get to enjoy musical accompaniment on the violin on Sunday, September 10th. And those planning to attend the [Sunday Art Brunch Free Gallery Walk](#) on September 17th can visit the ARK SGO™ showroom at 105 E. Pearl Ave. to enjoy the Osmium Violin for its last concert in Jackson while sipping mimosas and enjoying light brunch bites. The violin will also be on display at the [Independent Artists Showcase](#) on Tue, September 12th and at the showroom throughout the festival.

ARK SGO™ is proud to be the US flagship store for the [Osmium Institute](#) of Germany. The company is delighted to bring the exquisite [Osmium Violin](#) to Teton Valley and to share with visitors to the showroom the opportunity to explore the world of silver, gold, and osmium in person. ARK will have a wide selection of pieces on display and are privileged to be joined by Scarlett Clauss, Vice Director of the Osmium Institute of Germany, to showcase and answer questions about European award-winning osmium jewelry. In addition, Ian Everard, an expert in precious metals and founder of ARK Silver Gold Osmium, will be present to share insights on the company's offerings.

About Ian Everard

Ian Everard possesses a deep understanding of the monetary system and its historical impact, having personally experienced the devaluation of currency during the forced decimalization in the United Kingdom. He has dedicated himself to studying the world economy, national and international current events and currency news, and historical events around precious metals, currencies and central banks. He educates clientele on the impact of these events on the monetary system and is passionate about helping people preserve their wealth and privacy through precious metals ownership.

About ARK Silver Gold Osmium

ARK Silver Gold Osmium offers silver, gold, and osmium for the preservation of wealth in addition to unique precious metal gifts. We are the first retailer and flagship store of the Osmium Institute of Germany's vapor crystallized osmium, the rarest and finest precious metal on earth, and their luxe tangible asset investment jewelry. ARK's aim is to promote the understanding of the financial times we are in and how rapidly they are changing, and particularly how precious metals can store one's wealth through these turbulent times.
